

Mobile Skatepark Hire

Ideal for BMX riders, inline skaters, skateboarders or scooters alike, our mobile skate park is suitable for all abilities.

Our exciting mobile skate park equipment can be set up as a simple single ramp or right up to a fully loaded park with half pipe and integrated street course, which is perfect for environments that require temporary or short duration provision of roller sport facilities in locations or sites such as schools, colleges, youth clubs and sports centres making our **mobile skatepark** ideal for large numbers of users of all abilities. It truly provides something for everyone, from beginner to expert, BMX rider, inline skater, scooter rider or boarder.

KEY FACTS

- Variety of layouts available
- No minimum area (space availability dependant)
- Can tailor the layout for small or unusually shaped areas
- Supplied with fully trained staff.
- Perfect for scooters
- £10 million Public Liability Insurance
- Method Statements and User Risk assessments
- Available for part-day, full-day, weekends or long term projects
- Erected and dismantled by Transend Team
- All equipment can be provided eg. Skateboards and Helmets.

The mobile skatepark can be hired throughout the year bringing the enjoyment of skating, scooting and BMX riding to your facility. We're available to hire for any event group or club and we are happy to work with you on making the best event possible.

The skatepark is fully mobile and can be set up within an hour. Definitely an ideal way to provide roller sport facilities for an increasingly popular activity on a temporary basis.
